67 - 77A A 30 :

CONTENTS

SECTION B—VOL. LXI

PAGE

No. 1—January 1965

The New Physiology of Vision. Chapter VIII. The Perception of Polarised Light . . . . . Sir C. V. Raman 1

The New Physiology of Vision. Chapter IX. The Structure of the Fovea . . . . . Sir C. V. Raman 7

Studies on the Plankton of the East Coast of India. Part II. Seasonal Cycle of Plankton and Factors Affecting Marine Plankton Production with Special Reference to Iron Content of Water . . . . . R. Subrahmanyan and R. Sen Gupta 12

N^{15} Tracer Studies on the Transformation of Applied Nitrogen in Submerged Rice Soils . . . . . S. Patnaik 25

N^{15} Tracer Studies on the Utilization of Fertilizer Nitrogen by Rice in Relation to Time of Application . . . . . S. Patnaik 31

Morphology and Histology of the Cutaneous Sense-Organs of *Mystus vittatus* (Bl.) . . . . . V. P. Agarwal and V. K. Rajbanshi 39

Observations on the Biology of Aquatic Bugs (Hemiptera) Injurious to the Pond Fishes. I. *Anisops bouvieri* Kirkaldy . . . . . J. M. Julka 49

No. 2—February 1965

The New Physiology of Vision. Chapter X. The Major Visual Pigments . . . . . Sir C. V. Raman 63

The New Physiology of Vision. Chapter XI. The Carotenoid Pigments . . . . . Sir C. V. Raman 71

Contributions to a Biochemical Study of Sugarcane. II. Chlorophyll-Iron Balance in Cane Leaves, and Its Use in the Early Characterisation of Late and Early Ripening Cane Varieties . . . . K. Parthasarathi 81

Survival of a Daphnid (*Moina dubia* Gurney and Richards) in Different Oxygen Content Levels . . . . . K. P. Krishnamoorthi 90

Morphological and Anatomical Studies in Helobiae. III. Vascular Anatomy of the Node and Flower of Najadaceae . . . . . V. Singh 98

Studies on the Host Range of *Piricularia oryzae* Cav. Causing Blast Disease of Rice . . . . . J. Veeraraghavan and S. Y. Padmanabhan 109

Observations on Some Abnormal Foliage in the Sandal Trees of Hangal Forest Range of Mysore State . . . . . P. S. Rao, P. K. Ramaiah, D. Nanjundappa and D. G. Wesley 121

PAGE

No. 3—March 1965

The New Physiology of Vision. Chapter XII. Chromatic Sensations at High Luminosities . . . . . Sir C. V. Raman 125

The New Physiology of Vision. Chapter XIII. Blue, Indigo and Violet in the Spectrum . . . . . Sir C. V. Raman 129

A Preliminary Study on the Influence of Gibberellic Acid on *Mentha arvensis* Linn. var. *Piperascens holmes* (Japanese Mint) . . . . . B. K. Kaul and L. D. Kapoor 135

Studies on Transpiration in Millepedes. I. *Spirostreptus asthenes* Poc., from a Tropical Jungle Near Madurai . . . . . S. K. Dwarakanath and S. V. Job 142

Morphological and Anatomical Studies in Helobiae. IV. Vegetative and Floral Anatomy of Aponogetonaceae . . . . . V. Singh 147

Atrovenetin. Part II. Antibiotic Spectrum and Microbiological Assay . . . . . N. Narasimhachari, B. N. Vasavada and S. Viswanathan 160

Observations on Nitrogen Fixation and Organic Matter Produced by *Anabaena circinalis* Rabh. and Their Significance in Rice Culture . . . . . R. Subrahmanyan and M. N. Sahay 164

Studies in Musaceae. III. Fossil Records of Musaceae and the Origin of Bananas . . . . . R. K. Jain 170

No. 4—April 1965

The New Physiology of Vision. Chapter XIV. The Red End of the Spectrum . . . . . Sir C. V. Raman 181

The New Physiology of Vision. Chapter XV. The Chromatic Responses of the Retina . . . . . Sir C. V. Raman 187

Studies on Foliar Sclereids in Gymnosperms (A Preliminary Survey) . . . . . T. Ananda Rao 196

Studies on the Pupation of *Musca domestica nebulo* Fabr. (Diptera—Cyclorrhapha—Muscidae) . . . . . K. R. Karandikar and D. R. Ranade 204

Palynological Studies on Indian Taraxaca—I . . . . . (Mrs.) Suman Chopra and P. K. K. Nair 214

Carbon and Nitrogen Utilisation by Two Isolates of *Alternaria solani* (Ellis & Martin) Jones & Grout . . . H. S. Nagaraj Rao and A. Apparao 222

PAGE

No. 5—May 1965

The New Physiology of Vision. Chapter XVI. Further Studies of the Retinal Responses . . . . . Sir C. V. Raman 237

Studies in Pteridophytes. V. The Development, Structure and Arrangement of Leaves in Some Species of Lycopodium . . . . . S. Bhambie 242

Chromosome Numbers in Some Indian Angiosperms—II . . . Baldev Raj 253

Studies in the Vegetative Growth in Kaghzi Lime . . . . V. S. Motial 262

Apical Organization of the Roots of Dicotyledons. II. Root Apices of Some Members of Proteaceae, Crucifereae, Piperaceae, Amaranthaceae, Onagraceae, Gentianaceae and Scrophulariaceae . . . . . S. K. Pillai, P. Vijayalekshmi and mana M. George 267

On Some New Species of Spiders of the Family Thomisidae from India . . . . . B. K. Tikader 277

No. 6—June 1965

The New Physiology of Vision. Chapter XVII. Location of Visual Pigments in the Retina . . . . . Sir C. V. Raman 291

Apical Organization of the Roots of Dicotyledons. III. Root Apices of the Compositae . S. K. Pillai, Omana M. George and P. Vijayalekshmi 296

Studies on the Nutrition of the Rice Plant (*Oryza sativa* L.). Part VIII. Productive Efficiency of Phosphorus Absorbed at Various Growth Stages of *Indica* Rice. . . S. Patnaik, C. S. Misra and A. Bhadrachalam 309

Morphological and Anatomical Studies in Helobiae. V. Vascular Anatomy of the Flower of *Lilaea scilloides* (Poir) Hamm. . . . . V. Singh 316

Purple Blotch Disease of Onion in Punjab. II. Studies on the Life-history, Viability and Infectivity of the Causal Organism *Alternaria porri* . . . . . V. R. Pandotra 326
